Snakes Wear Socks will delight readers with its colorfulness and playfulness by encouraging students to show their use of reading knowledge through summarizing, retelling, questioning and inferring.

The dryer isn't stealing your socks, snakes are. At least, they are stealing Jeremy's. In Snakes Wear Socks, Kyle & Katy Chandler-Isachsen tell a delightful story of a little boy on a quest to find his missing socks. We meet little Jeremy just as the leaves are changing and autumn is sending a crisp chill through the land. Pumpkins are being picked. Soccer balls are flying. And Jeremy wants to play outside. He reaches into his drawer for his favorite pair of socks (the ones with the stars on them) but can only find one of them. He asks his Grandpa for advice. "But Pop!" Jeremy protests. "Snakes don't wear socks!" Follow along in Snakes Wear Socks and be surprised by the curious mystery that unfolds. This book is beautifully illustrated by long-time children's book artist, CD Hullinger. It is perfect for bedtime or a blustery autumn afternoon. Snakes Wear Socks will delight young ones with its color, playfulness and silliness.

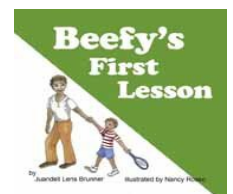

Color My Coral enhances literacy development through vocabulary building, onomatopoeia and word sound repetition. It allows students the ability to retell, infer, and summarize.

Color My Coral is a children's story book that takes readers on an adventurous dive into "turbulent seawaters" for a "deeper" look at the impact of pollution on coral reef habitat. This book contains many features that enhance literacy development such as vocabulary building, onomatopoeia and word sound repetition. It's a compelling tale that can lead to discussions about solutions to water pollution with children.
